

Foran Mining Corporation (FOM-TSX.V), a Vancouver based exploration and mining company, is seeking an experienced, motivated, and enthusiastic **Manager, Project Accounting & Financial Reporting** for its McIlvenna Bay Project in east-central Saskatchewan. The McIlvenna Bay Cu-Zn-Au-Ag deposit is one of the largest undeveloped VMS deposits in Canada. Foran is currently advancing a Feasibility Study and is undertaking a significant expansionary and exploratory drill program.

Foran is committed to building a skilled and diverse workforce as we move into our next phase of growth.

Manager, Project Accounting & Financial Reporting Posting 2021-11

The **Manager, Project Accounting & Financial Reporting** will act as a key liaison between site operations and the corporate accounting function. The successful candidate will take ownership of critical tasks including monitoring the monthly closing process, project accounting, budgeting, variance analysis, cost/benefit analysis, and driving the maintenance and improvement of the company's various financial reporting and control systems. The successful candidate will also assist with the preparation of quarterly external financial reports with the corporate accounting team.

Duties & Responsibilities

- Take ownership of the project accounting and management accounting functions while acting as a main point of contact for the operations team.
- Assess and drive the implementation of additional enhancements to existing financial reporting systems, including ERP implementation, in light of the company's transition to a developer.
- Work closely with the site operations team to review material contracts, arrangements and perform cost/benefit analysis as requested.
- Coordinate with internal departments to prepare monthly and quarterly variance analysis.
- Continuously strive for cost efficiency while working closely with and assisting the site procurement team as required.
- Assist with the development and enforcement of financial policies, procedures, and internal controls.
- Assess complex accounting issues while presenting conclusions as well as implementation plans.
- Assist with preparation of internal and external reporting, including the consolidated financial statements and MD&A.
- Assist with other special projects within the accounting function and the broader company.

Skills And Competencies

- Excellent communication, interpersonal and organizational skills.
- Comprehensive understanding of International Financial Reporting Standards (IFRS).
- Significant ERP and financial reporting systems experience.

Skills And Competencies, continued

- Ability to “think outside the box,” and embrace a dynamic, complex, fast-paced, and deadline-driven environment.
- Call on past experiences, industry trends and modern technology to identify opportunities to improve and streamline processes.
- Effective project management skills and demonstrated ability to prioritize multiple tasks.
- Flexible and able to adapt quickly to changing priorities.
- Ability to develop constructive relationships to work with other departments and ensure smooth and timely collection of information required for various accounting and operational purposes.

Experience, Qualifications & Education

- A professional accounting designation is required (CPA) and at least 5 years of professional experience.
- Relevant experience with an ERP software (with preference given to candidates with deep experience in the SAGE platform)
- Relevant experience within the mining industry or other capital-intensive industries (Construction, Real Estate etc.)

This posting is for a full-time permanent position to commence immediately, based in Saskatoon, Saskatchewan. A competitive compensation package is available for the successful candidate.

Foran is creating a blueprint for responsible mining that causes the least possible harm and delivers better returns from day one of operation. We aim to be cleaner, safer, and more efficient than the competition by design. We are committed to protecting the earth and communities with zero-emission technologies, environmentally friendly practices, combined with innovative worker safety and quality of life initiatives and strong transparent governance.
