Related Party Transaction

Certain controlled affiliates of Fairfax, an insider of the Company, subscribed for the 12,563,798 Common Shares issued in the Brokered Offering. The insider participation in the Brokered Offering constitutes a “related party transaction” within the meaning of Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* (“MI 61-101”), for which the Company was exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 pursuant to sections 5.5(a) and 5.7(1)(a) thereof, respectively, as neither the fair market value of the securities issued to the insider under the Brokered Offering nor the consideration paid by the insider exceeded 25% of the Company’s market capitalization, in each case as determined under MI 61-101. A material change report disclosing the related party transaction was filed on August 8, 2024 in connection with the closing of the first tranche of the Offering.

Early Warning Disclosure

Immediately prior to the acquisition of the Common Shares pursuant to the Brokered Offering, certain controlled entities of Fairfax beneficially owned an aggregate of 56,524,688 Common Shares, representing 15.1% of the issued and outstanding Common Shares, and 27,777,778 non-voting shares of the Company (the “**Non-Voting Shares**”, together with the Common Shares, the “**Shares**”) representing 100% of the Non-Voting Shares and, together with the Common Shares owned by Fairfax, 21.0% of the issued and outstanding Shares. As a result of the acquisition of the 12,563,798 Common Shares in the Brokered Offering, Fairfax now beneficially owns 69,008,486 Common Shares, representing 17.6% of the issued and outstanding Common Shares, and 27,777,778 Non-Voting Shares, representing 100% of the Non-Voting Shares and, together with the Common Shares owned by Fairfax, 23.0% of the issued and outstanding Shares.

This press release and Fairfax’s corresponding early warning report (the “Early Warning Report”) which is expected to be filed on SEDAR+ in the near term, constitutes the required disclosure pursuant to section 5.2 of National Instrument 62-104 - *Take-Over Bids and Issuer Bids* (“NI 62-104”). The requirement to file an early warning report was triggered because the acquisition by Fairfax of the Common Shares in the Brokered Offering resulted in Fairfax’s beneficial ownership of the Common Shares increasing by greater than 2% as compared to the early warning report last filed by Fairfax. The Common Shares acquired under the Brokered Offering are being acquired by Fairfax for investment purposes and it may further purchase, hold, vote, trade, dispose or otherwise deal in the securities of the Company, in such manner as it deems advisable to benefit from changes in market prices of the Company’s securities, publicly disclosed changes in the operations of the Company, its business strategy or prospects, or from a material transaction of the Company. In the future, it may discuss with management and/or the board of directors of the Company any of the transactions listed in clauses (a) to (k) of item 5 of Form 62-103F1 of National Instrument 62-103 – *The Early Warning System and Related Take-over Bid and Insider Reporting Issues* (“NI 62-103”).

The Early Warning Report that will be filed on SEDAR+ in respect of the Brokered Offering will satisfy the requirement of section 5.2 of NI 62-104 to have the Early Warning Report filed by an acquiror, in this case by Fairfax, with the securities regulatory authorities in each of the jurisdictions in which the Company is a reporting issuer and which contains the information required by section 3.1 of NI 62-103, which includes the information required by Form 62-103F1.
